FINGERS SHOT OFF.

Colored Festival Near Bennetts-town Winds Up in Kow.

A Number of Shots Were Fired But Only One Man Was Hit.

A colored barbecue and festival was held not far from Bennetts-town Saturday night, and, as is often the case on similar occasions, the entertainment broke up in a row, but this time no one was killed. It seems that a fuss was started in which there were several participants. Pistols were drawn and the shooting commenced. A number of shots were fired and when the smoke cleared away it was found that Mort Giles, col., had been shot in the hand. The report is that he lost three or four fingers. It is not known who shot Giles. The crowd immediately dispersed and no warrants had been sworn out at last accounts.

TO THE SEASHORE.

Party from Hopkinsville Will Be a Large One.

Next Saturday, August 13, the crowd will leave for Old Point Comfort, reaching the seashore on the afternoon of the 14th. From every section comes the information that numbers are preparing to go on this most delightful of all trips and many others will decide to go before the time of departure arrives. There will be thirty or more from Hopkinsville and vicinity in the party, the largest number that ever left here on a similar occasion. Of all the summer outings, the Old Point Comfort trip is the best in all respects, as those who have been to the sea coast will testify. For picturesque scenery, fine car service, low rates and long ticket limit, this trip surpasses them all. The crowds from the various points will meet in Louisville, where, at 5 p. m., they will leave on a special train over the O. & O. road. The train will be made up mostly of Pullman sleepers and will be run through on fast time. Those desiring sleeping car space should apply at once to W. A. Wilgus or T. E. Bartley, Hopkinsville.

MUST GIVE BOND.

Order Affects About Ten Thousand and Railway Postal Clerks.

The Postoffice Department has issued a general order directing that every railway postal clerk shall give \$1,000 bond to the United States. Each clerk shall pay the premium chargeable to himself. This order affects approximately 10,000 employees, embracing all the railroad postal clerks except those who are assigned to clerical duties in which they do not have access to registered mail.

UP-TO-DATE FARMING.

Wheat Bulletin for the American Society of Equity.

Kirkmansville, Ky., Aug. 8.—The Society estimates the 1904 winter wheat crop in the United States at 365,000,000 bushels, and the spring wheat at 210,000,000 bushels, making a total of 575,000,000 bushels. This society also recommends a minimum price for the 1904 crop of wheat at \$1.20 per bushel.

The purpose of the society to report crops so that the farmers may operate intelligently in planting and marketing is certainly a very wise move. By this system of crop reporting they can prevent overproduction of any commodity and secure profitable sales. This system will also end the pricing of their produce by speculators and combine months before they are harvested. Every farmer in this section is needed in this society, and their membership will be solicited shortly.

CITY SURVEY

Ordered As First Step For System Of Sewers.

Council Ready To Take up a Great Public Improvement.

The city council at its meeting Friday night took the first step towards the construction of a sewerage system for the city. Engineer McCloud was instructed to make a survey of the streets of the city and furnish an estimate of the probable cost to the city. He was directed to employ such assistance as may be needed. The prevalence of typhoid fever in the city has brought to the attention of the council the crying need of a sewerage system and public opinion is strongly behind the movement to take the matter up as soon as possible. When the engineers' report is before it, the council will be in position to act intelligently.

MISS EDITH WALLER.

Typhoid Fever Claims As Victim a Beautiful Young Lady.

Miss Edith Waller, only daughter of the late Mr. Wm. L. Waller, died Sunday morning of typhoid fever. She was taken ill two or three weeks ago and almost from the first her life was despaired of. The disease progressed steadily to a fatal termination.

Miss Waller was a young woman of rare beauty and loveliness of character. An only daughter, she was the idol of a fond mother and two brothers. Mr. John T. Waller, of Florida, arrived yesterday to attend the funeral services, which were held at the Baptist church at five o'clock in the afternoon. Rev. C. H. Nash, pastor of the Baptist church, of which Miss Waller had been a member since childhood, officiated. The body was laid to rest in Hopewell Cemetery.

WAIVED EXAMINATION

And Grand Jury Will Investigate Next Fall.

William Whitfield, col., was arrested Friday on a charge of grand larceny. Whitfield is accused of breaking open the locker of Wm. Oakley, an L. & N. brakeman, while the train was in the yards here, and taking therefrom a diamond and opal ring, valued at \$125. The railroad man recovered his property. At the examining trial the prisoner waived preliminary hearing and the case goes over to Circuit Court. Whitfield is in jail.

FORMALLY INSTALLED.

New Pastor of The Ninth Street Presbyterian Church.

Rev. Dr. J. E. Fogartie, the new pastor of the Ninth street Presbyterian church, was formally installed Sunday, the Mublenberg Presbytery meeting here for that purpose. Dr. William Irvin presided and delivered the charge to the pastor. Dr. E. E. Smith preached the formal sermon and charge to the congregation. Dr. Wm. Irvin, of Bowling Green, at night preached the regular union service sermon at the First Presbyterian church.

LOSS OF LEG

Results in the Death of L. & N. Brakeman.

Walter R. Maddox, who was injured by the train at Springfield, Tenn., about two weeks ago, died Saturday afternoon at his home on South Walnut street.

Young Maddox was brakeman on the L. & N., local running between this city and Nashville. While doing some shifting in the yards at Springfield he fell and the wheels passed over one leg, crushing it so badly that amputation was necessary. A few days after the operation the injured man was brought here. Gangrene developed and it became necessary to operate a second time. He stood the operation well, but on Thursday he grew worse and death resulted as above stated.

Mr. Maddox was 22 years old and a son of Mr. T. B. Maddox. He was making his first round trip as brakeman when the accident occurred.

STEPLADDER CORN.

Samples On Exhibition 14 and 17 1-4 Feet High.

Mr. J. O. Cushman one day last week left at the Kentucky office a stalk of corn from one of his fields that measured 14 feet in height. It was tagged and placed on exhibition a day or two later Mr. J. H. Duvall brought in one that measured 17 feet and 3 inches. This is also on exhibition. Who can make it 20 feet.

TYPHOID VICTIM.

Young Farmer Passes Away After Brief Illness.

John Mart, a well known young Fruit Hill farmer, died last Friday morning of typhoid fever. He had been ill for about two weeks, but was only confined to his bed a few days. He was 18 years old and a son of Mrs. Mitche Hart. The interment took place in the West burying ground Saturday.

DIED IN THE ASYLUM.

Remains Were Shipped to Princeton for Interment.

Mrs. Annie Lee O'Bryan, an inmate of the Western Asylum, died one day last week. She was sent to the institution from Caldwell county several years ago. She was thirty-one years old. The body was sent to Princeton for interment.

New Postmaster.

Lucy Fletcher has been appointed postmaster at Horace, Christian County.

HOPKINSVILLE WINNERS.

Contest at Crofton Was a Great Success.

The Old Time Fiddlers' contest at Crofton Saturday night was a great success in all respects. Prof. Gray welcomed the fiddlers in a brief address, which was responded to by Mr. W. F. Randle. Hopkinsville was represented in the contest by Messrs. J. G. Hord, T. E. Bartley, W. F. Randle, J. M. Starling and Robert McCarroll. In the contest between North Christian and South Christian, South Christian won. The Hopkinsville performers represented South Christian and were all given prizes in this contest. Mr. R. H. Huggins gave an exhibition of the "Buck and Wing" dance. White Plains was given the decision in the White Plains-Hopkinsville contest.

In the duet contest there were a dozen entries. T. E. Bartley won the prize, on "Arkansas Traveler." Mr. Bartley was accompanied by Mr. Randle. The prize in the individual contest, eight entries, was won by Mr. Randle, who played "Leather Breeches."

The crowd was very large, every available space being taken and standing room was at a premium. A good sum was realized and after paying expenses the balance was given to the Universalist church at Crofton.

YOUNG WOMAN

Stricken With Paralysis While Visiting and Death Results.

Lafayette, Ky., Aug. 4.—Miss Hopie Hancock, daughter of Mr. Lowry Hancock, who lives two miles south of here, died last night of paralysis. She was taken Monday while visiting a neighbor and continued to grow worse until death came as stated above. She was a beautiful and lovable young lady, just budding into lovely womanhood. She would have been 20 years old the 10th of this month. The family have the sympathy of many friends and relatives in their deep affliction.

ONE BIG CROP

Inadvertently Omitted From the Published List.

In the list of Wheat Growers published Friday one of the largest crops was left out through an error of the printer. It was that of Mr. R. T. Stowe, of Julien, who raised 8000 bushels and sold at the fancy price of 96 cents, with one or two exceptions the best price realized by any grower in the county.

Three other large crops from the Kennedy neighborhood have been reported, viz: Williams & Sallee 3,600, Dr. J. A. B. Word 3,500 and Joo. W. Jones 3,500 bushels.

There is more catarrh in this
section of the country than any
other diseases put together, and until
the last few years was supposed to
be incurable. For a great many
years doctors pronounced it a local
disease and prescribed local reme-
dies, and by constantly failing to
cure with local treatment, pronounced
it incurable. Science has
now proven catarrh to be a constitu-
tional disease and therefore requires
constitutional treatment. Hall's
Catarrh Cure, manufactured by E.
J. Cheney & Co., Toledo, Ohio, is the
only constitutional cure on the mar-
ket. It is taken internally in doses
from 10 drops to a teaspoonful. It

claiming the nomination, has filed
with chairman McQuown a lengthy
protest against the rulings of Dis-

Fifth district. Judge Cantrill is
known as an "anti-machine" can-

be set aside, because everything
goes in a game of politics. Judge
McQuown will probably call a

The Battle Ground of Modern Thought.

The Chicago Record Herald has
conceived the unique idea of as-
signing a page of its Sunday edi-
tion to the public for the free dis-
cussion of important questions of
the day. Under the head, "The
Battle Ground of Modern Thought,"
an opportunity is offered to the
public for the sane discussion of all
problems engaging the attention of
the American people. Writers of
ability present their views on sub-
jects not generally treated in the
daily press, and Record-Herald
readers generally are invited to
join the debate. The fairest, most
forceful and original contributions
are published. The following are
a few of the subjects which have
been discussed since this depart-
ment was first established:

"Backsliding Within the Law?"
"Fruits and Proper Way to Reg-
ulate Them."
"Great Peril That Beets Pagan
China."
"Liquor Trade and its Evil Con-
sequences."
"Are Free Books Wanted in
Public Schools?"
"Inhumanity to Animals."
"New Struggles for the Negro."
The Record Herald disclaims any
responsibility for the dogmas up-
held, the theories advanced or the
panaceas advocated. It reserves
the right only to preserve order, to
keep out personalities and rancor
and to see that good temper and
candor characterize the discussions.

THE USES OF THE ROPE.

Hundreds of Thousands of Human
Lives Each Day Hung by
Wire Thread.

While the longest ropes are used
for hauling purposes, some of the
most interesting data in connection
with wire ropes are obtained
with their use for hoisting pur-
poses, says Mines and Minerals.
Hundreds of thousands of lives are
literally each day hung by a small
wire thread as the men are lower-
ed into and hoisted from the bowels
of the earth, and in many cases
the only means of communication
between the surface and the
underground workings, which are
from a few feet to a mile in
depth, is by a comparatively small
hoisting rope. Think of hanging
from the end of a cable only a few
inches in diameter and a mile
long, being hoisted at a rate which
is faster than that of the average
railroad train, and some idea of
the hoisting problem can be gained.
To the honor of the wire rope
manufacturers, it must be said
that very few shaft accidents are
due to the breaking of the rope,
excepting where the cage is over-
wound and unwarranted demands
are made upon the rope, or which
are traceable to false economy on
the part of the users of wire rope.
No part of a mining plant is more
carefully inspected and watched
than the hoisting rope, and very
few mining managers will take
any unnecessary risks in the hoist-
ing of men. The skill of the wire-
rope maker is taxed to the utmost
to provide ropes for hoisting from
great depths. To make a rope of
practicable size that will be suf-
ficiently flexible and that will bear
even its own weight is no mean
problem, for in such cases the weight
of the rope is often much more
than the material lifted. Hence we
have taper rope intended to give
a varying section dependent on
the amount of rope off the drum
or reel.

LONELINESS OF PRAIRIES.

Treeless, Trackless Wastes That Are
Devoid of Water and Un-
inhabited.

"I had almost as soon be set
adrift in a small boat in mid-ocean
as to be dropped down on the vast
prairie near the Kansas-Colorado
state line," said a man who is
familiar with the west, according
to the Birmingham (Ala.) News.
"One cannot realize the loneli-
ness of the western plains until he
has crossed them. There are
very few human habitations, com-
paratively little of the land is under
cultivation, and water is a
scarce and precious commodity.
In every direction nothing meets
the gaze of the eye except a track-
less, treeless waste which is
bounded only by the lowering sky.
Prairie dogs are the chief denizens
of this region, and as the train
whirls past they perch themselves
on the hind legs and sit bolt up-
right as motionless as a statue.
There are a few houses, but they
are at wide intervals. The one
single advantage that a lonely pe-
destrian has in that region is that
by following the railroad track
sufficiently far he will reach a
town some day but walk at this
season under the burning prairie
sun is by no means pleasant."

"It is positively tiresome to the
eye to ride across the prairies in
a comfortable Pullman car sur-
rounded by all the luxuries of life.
This being true, it must be next to
appalling to have to tramp over
this region without food or water,
except what one begs at the few
way stations along the route. I
have never been able to see any-
thing picturesque or inviting about
the wide stretching plains."

Cavalrymen Who Ride Oxen.

The oldest cavalry in the world
is maintained on the west coast
of Madagascar by Gov. Gen. J. O.
Gaillien. While the French troops
in that country are able to meet
the occasional revolutions, the
governor general makes use of na-
tive talent for police work in out-
of the way localities. On the west
coast of Africa is a tribe of na-
tives, possibly radically connected
with the Iforas, who are known as
the Sakahora, the most warlike
tribe of the country. The natives,
in imitation of French troops,
organized an oxen cavalry corps,
under command of a French offi-
cer. They are armed with spears,
long handed lances or spears and
side arms—Chicago Chronicle.

NEW PORPOISE CATCHERS.

Vibrating Rods Set Up in the Gulf of
St. Lawrence Holds Them
Prisoners.

The new "vibrating rod" meth-
od of catching porpoises, discov-
ered last fall by Campbell McNab,
an experienced hunter and fisher-
man of the Saguenay river dis-
trict, is being successfully tried
by fishermen along the Portneuf
river, below Tadoussac, and, in
fact, all along the Gulf of St. Law-
rence, says the New York World.
Porpoises are valued at from
\$30 to \$50 each, and for years Indi-
ans and fishermen have dili-
gently sought them, but they have
been difficult to get in quantities
because of their excessive wariness.

The old method was to shoot
into schools that had gone up
small rivers with the tide looking
for food, and get as many as pos-
sible before the prey escaped to
the ocean. This was unsatisfac-
tory, as more than one was seldom
taken. The toughest nets strung
across the mouths of the rivers
failed to hold the porpoises after
the shot had been fired.

McNab, however, appears to
have made a discovery which
will revolutionize porpoise catch-
ing. He does not say how he
arrived at his conclusion, but ad-
mits that his method is the result
of several years of careful inves-
tigation.

It is simply to place in the
mouth of the river a slender, taper-
ing rod of steel or seasoned
wood attached by the butt to a
stake driven in the river bed. The
rod is from 10 to 40 feet long, ac-
cording to the width of the stream,
and is so arranged that the outgo-
ing tide will cause it to vibrate.

It is not placed in position until
the porpoises have gone up the river
with the incoming tide to search
for food and salmon, on which they
live almost exclusively. Once the
rod is in place no porpoise will
pass within 300 feet of it.

No one knows just why the porpo-
ises fear the rod, but it is be-
lieved that the vibration has a
painful effect on the ear, which is
unusually sensitive.

EVEN EXPERTS DECEIVED.

Secret Process of Making Rubies That
Produces Apparently
Real Gems.

A jeweler recently laid two rubies
on his counter and asked a
customer to select the better
stone. They were of about the
same size. The customer exam-
ined each carefully, and then made
his selection, says the New York
Sun.

"I thought that would be the
one," said the jeweler. "Many ex-
perts would have selected it. The
one you have chosen is worth only
\$35, however, while the other one
is worth \$240."

"The cheaper one has the better
color," said the customer.
"It certainly has, but it is a com-
position stone. It is made of ro-
bies, but the process is so perfect
that few can detect that it is not
a real stone."

"The process of its manufacture
is known only to the man who
made it. He is an Englishman,
and has found out a way of taking
ruby chips and making them into
what look like real rubies."

"What he does no one knows,
but from an examination made
under a powerful glass it would
seem that he grinds the chips into
a paste and then works the paste
into a solid, and afterward cuts
and polishes it. He is so careful
about the color that the made
stones are invariably better than
many genuine ones."

"Many experts would be fooled
with these stones if they did not
know about them. A powerful
glass will reveal what they are.
In a real stone the grain always
runs straight, but in one of these
made gems there is no grain at
all."

"The maker of these composi-
tions can't manufacture diamonds
yet, but I understand he has been
trying, and he may succeed. Em-
eralds and other stones have been
experimented with, but none has
been imitated so successfully as
the ruby."

The State College of Kentucky,

LEXINGTON, KENTUCKY.

The Agricultural and Mechanical (State College of Kentucky) offers the following courses of study, viz: Agricultural, horticultural, chemical, biological, mathematical, physical, normal school, classical, mechanical engineering, electrical engineering, civil engineering, mining engineering, each of which extends over four years and leads to a degree. Each course of study is organized under faculty guidance. The faculty number nearly fifty professors and instructors. County appointees receive tuition, room rent in dormitories, fire and light, and if they remain traveling expenses. The laboratories and museums are large, well equipped, comprehensive and modern. The legislature appropriated \$60,000 for a college home for young women and \$30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are fully provided for as required by congress. Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the college to supply. Last year the matriculation was 750. Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering and instruction in science. The State College of Kentucky, though bearing hitherto the title of "college" is the only institution in the Commonwealth dealing in any proper sense university work. The completion of the college home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences including bath rooms and rooms for physical training. It is heated by steam and lighted by electricity. An opportunity is thus afforded to both sexes to receive education in classics, modern languages, literature, science, mathematics, logic, metaphysics, history and political economy. No other institution in the State offers advantages for educational women of all comparable to those offered by the State College of Kentucky. PROTECTING THE ORPHAN is one of the offices of a trust company. It acts as a guardian and safeguards the child's interests in every way. The little one's estate is carefully handled to its best interests.

The Planters Bank and Trust Company is prepared to undertake such a responsible duty at any time. It also acts as trustee, executor or administrator. It receives deposits subject to check at sight.

Fair Japan.

For the past few days a number of enthusiastic "boomers" of the World's Fair in St. Louis have been in this section chanting the glories of the "Pike" as the midway there is termed. It is a strange fact, however, that there is not one among them but who admits that from a standpoint of educational value and artistic beauty there is not a spot along the pike which can compare with "Fair Japan," the little garden spot which the well known Japanese firm of Kuwabara & Arai has constructed in the very heart of the turmoil and glare of this amusement addenda to the Louisiana Purchase Exposition.

The exterior of "Fair Japan," with its imposing entrance, probably is the most ornate and picturesque place within the entire grounds. One enters "Fair Japan" through the columns and beneath the towering roof of a replica of the famous Nikko Gateway. Once inside one can almost imagine himself in far away Japan. The atmosphere, the architectural scheme and the landscape gardening are typical in every detail of the country of which Sir Edwin Arnold has written so graphically. There are booths in which one may purchase almost anything from a penny whistle to a five hundred dollar kimono, tea houses in which beauties selected from the most popular resorts of Yokohama and other great cities of Japan serve tea to the thrifty multitude; a Japanese theater, the only one of its kind ever erected in America, in which fifty-four real Geisha girls sing their native songs and reproduce the dances of their far away home; a tea garden and a hundred other attractions which to be appreciated must be seen.

From the reports which have reached this city it might be well for those residents contemplating a visit to this fifty million dollar show to paste within their hats the brief memoranda, "Fair Japan up on the Pike."

BIG HAUL

Made. By Thieves Who Entered Bohn & Franklin's Store.

Sunday night thieves entered the store of Bohn & Franklin, cor. Ninth and Virginia streets, and carried off goods amounting to probably \$75. Entrance was affected by prizing open the front door. The proprietors do not know just how much merchandise was taken, but eleven suits of clothes, several pairs of shoes, some gents' underwear and a suit case are among the articles missed from the store. The thieves left no clue.

PADUCAH NEXT.

Must Have Three Straights to Even up Our Average.

We Failed to Take Two Out of Three From Cairo—Vincennes Goes Foot.

Hopkinsville lost the first game of the Cairo series here Friday, the score being 4 to 1. It was one of the most interesting games played here this season. Pettifer let two long flies pass. Had he caught these the score would have been 1 to 1 at the end of the ninth inning. Alexander was in the box for the locals, while Holycross pitched for the visitors. Hopkinsville was the first to score a run. This was done in the fifth inning. Cairo made a run in the sixth inning and another in the seventh. In the ninth the Egyptians scored twice, making four runs in all. The Browns were unable to get a man across the home plate after the fifth inning.

The second game here was won by a score of 4 to 3, by brilliant playing in the ninth inning by Bomar and Marré and the poor pitching of Cairo's pitcher Bittriff, who became rattled. On the close of the eighth inning the score stood 3 to 2 in favor of Cairo, the game having been close and exciting all through. Bomar and Moore for Hopkinsville, and Bittriff and Harvey for Cairo were the batteries. Bomar was at his best—and there are few better pitchers in the league. In the ninth inning Cairo failed to score and the game was considered over. Meander came to the bat and singled. Ferrell followed and struck out. Myers bunted and gained first, while Meander was put out at second. With two outs and a man on first, Bomar came to the bat to win his own game. It looked blue. Strikes one and two were called and the critical moment was at hand and Bomar rose to the occasion and sent a hot grounder bouncing its way to the left field fence. It was as pretty a three bagger as was ever seen. Myers scored from first and Bomar, who lacks speed as a runner, only made third base, when it looked like a home run.

The bleacher fans who had started to the gate came hurrying back to see victory snatched from the jaws of defeat and they witnessed a brilliant finish. Brady came to the bat and Bittriff, who had lost his head, gave him base on ball. In the excitement that followed Brady stole second. Gilligan, a poor hitter, shouldered the responsibility and Bittriff walked him and opened the way for Capt. Marré to win out. He did it by sending a swift grounder over third base that let in both Bomar and Brady, but the fifth score was not needed and did not count.

Bomar and Marré were the heroes of the hour and the fans gave vent to enthusiasm equaled only once before when Bomar, by a similar hit, snatched victory from

Clarkville in the last inning. The third game was played at Cairo Sunday and Pettifer was knocked out of the box by five hits in one inning. Ferrell took his place and held the Egyptians down to so close a game that they only won by rank decisions of Umpire Popp. The score was 5 to 3 in favor of Cairo.

Only one game was played Friday, besides the one here. Paducah beat Vincennes 3 to 2 in an eighteen inning game. Saturday Paducah again beat Vincennes by 5 to 4 and Sunday Vincennes turned the tables by 8 to 5.

Henderson piled three straights on Clarkville, at Henderson. Saturday the score was 1 to 0 and Sunday a double header they made 18 to 1 and 3 to 2. These victories enabled Henderson to regain her fifth place and get close to Hopkinsville.

Paducah To-morrow.

Paducah will furnish meat for the Browns this week. A series of three games will begin tomorrow and Indian fur is expected to fly. The only thing Paducah has done lately worth mentioning was to take two out of three from the tailenders. Nothing short of three straights will satisfy the Browns this time. Alexander will probably pitch the first game. Moore, the catcher, is partially disabled with a loose finger-nail and we may have a new catcher, as Collins is permanently out of the game.

On the Fly.

Clarkville has released Crotty and Hoepel.

Spencer, a second baseman who has been playing at Columbia, joined the Clarkville team Saturday.

"Smiley" Anderson and Blackburn came over from Clarkville Friday, that being an off day with their team.

Independent teams of Piqua, Urbana and Sidney, Ohio, have disbanded and some good players are open to offers.

Hopkinsville must be strengthened in the outfield.

Roedel, Vincennes' star fielder, broke open a ligament behind his knee in trying to steal a base, and is disabled.

Powers, Clarkville's center fielder, was struck on the jaw by a pitched ball, and put out of the game Saturday.

Mullen won for Henderson Saturday by stealing a base and scoring on a single at a critical point in the game with Clarkville.

Clarkville has climbed down some and is once more within striking distance of Hopkinsville.

Vincennes has again ousted Henderson from sixth place.

Crotty, released by Clarkville as third baseman, has been appointed umpire in place of Popp and will officiate here tomorrow in the games with Paducah.

Pettifer's errors Friday let in three scores, but the best of players sometimes have off days. Pettifer is a pitcher and is not suited for field work. He was half sick on the day in question and played under protest. If Bomar, who is always ready and good everywhere, had played right field the result would have been different. But don't knock on Pettifer. He is one of the best pitchers in the league and has done some fine work.

Brady has been permanently assigned to left field, where his magnificent arm can have full play. A Cairo coacher who got his head in the way was knocked down like a beef by Brady's home throw from the bleacher stand.

CRISIS AT HAND.

Russians Must Fight or Be Driven From the Field.

Japanese Are Advancing And Giving the Enemy No Rest All Along the Line.

London, Aug. 8.—The Times' correspondent at Tokio under date of August 7, says that there are un-official reports that the Japanese have captured commanding positions north and northeast of Port Arthur at a distance of 2,750 yards, the main line of Russian defense.

It is thought that Gen. Kuropatkin cannot longer avoid giving battle to the Japanese, and appearances indicate that he may be preparing for it. Russian advices are that simultaneous attacks upon Liao Yang and Mukden are expected. The Japanese are advancing, and the foreign attaches and correspondents are rushing to the front. Belated news of the last assault on Port Arthur says the Russians lost 1,500 men and forty officers, and they claim that the Japanese lost 10,000, which is doubted, even in St. Petersburg.

FORCED TO GIVE BATTLE.

Belief in Tokio That the Russians Will be Compelled at Last To Make a Stand.

Tokio, Aug. 7.—Gen. Kuropatkin's success in extricating his army from the Liao Tung peninsula without disaster has elicited much praise from the Japanese. The concentration of his army at Kai Chou at one time seemed certain to involve it in disaster. It was popularly believed that a generally decisive battle would either be fought at Ta Tche Kiao or at Hai Chong. It is considered here that Kuropatkin sacrificed his prestige by abandoning an immense territory without a battle. He was forced to abandon or destroy valuable stores and munitions of war when the transportation was almost the most serious problem to the Russians. He also impaired the morale of his army, but he preserved his men and guns. It is evident that he had hoped and planned to check the Japanese at Ta Tche Kiao. Then after holding the enemy in check, it is believed to have been his purpose to concentrate his remaining force at Liao Yang and to strike Kuroki.

Crisis Must Soon Come.

The unexpected loss of the Russians left at Ta Tche Kiao and the appearance of the Japanese Taku-shan army on the flank formed the abandonment and surrender, without a fight, of Yinkow, Hai Chong and New Chwang. It is generally believed that the crisis must come shortly at Liao Yang, and that Kuropatkin will be forced to give battle, whatever his present purpose may be.

Gen. Oku's and the Taku-shan armies are pressing northward and Gen. Kuroki is close at hand, ready to take any part necessary in the general Japanese play.

The possession of Yinkow (the port of New Chwang) has enormously simplified the problem for

the Japanese. It gives them two armies a freedom of movement which they have heretofore not possessed. The Japanese are speedily repairing the railroad which the Russians failed to seriously damage in their hasty retreat.

SHOT IN THE BACK.

Stanton McWilliams Killed on the Streets of Clarkville

Clarkville, Tenn., Aug. 6.—At 10 o'clock today a bloody tragedy occurred on a crowded street here. Charles Buchanan firing three bullets from a revolver into Stanton McWilliams' back. The wounded man died three hours later.

Last Monday Sam Buchanan, a brother of Charles, fired twice at McWilliams, the trouble growing out of a charge made by Charles Buchanan that McWilliams had been intimate with Sam Buchanan's wife.

On Wednesday last McWilliams met Charles Buchanan on a country road and gave him a severe thrashing. Today's tragedy was Charles Buchanan's revenge for that.

McWilliams, who was a native of East Tennessee had the reputation of having killed three men before he came to the Thirteenth district of this county about a year since. The Buchanans also lived in that district.

The shooting this morning occurred on Franklin street in the presence of a great crowd of people, and every one who saw it declares it was a cold-blooded murder.

The story told by McWilliams in his ante mortem statement was in substance that he and Buchanan had squared their troubles on Friday night and parted good friends; that today he passed Buchanan on the street and spoke to him good-naturedly; that when Buchanan got behind him a shot was fired and he felt the bullet strike him in the back; he turned, saw that Buchanan was shooting at him, and ran away; before he could cross the street and get into a store, Buchanan fired two more, all the bullets entering his back.

Buchanan was arrested immediately by Officer Small and lodged in jail. He refuses to talk. He still had the pistol with which he killed McWilliams. Four shots had been fired from it, and one cartridge had been snapped upon, but failed to explode. He also had a second round of cartridges in his pocket.

McWilliams was about 37 years old, but had no family here. His brother, who lives in Duplan, Tenn., wired the authorities to have the body buried at his expense.

Cures Eczema, Itching Humors, Pimples and Carbuncles—Costs Nothing to Try.

B. B. B. (Bottanic Blood Balm) is now recognized as a certain and sure cure for eczema, itching skin, humors, scabs, scales, watery blisters, pimples, aching bones or joints, boils, carbuncles, pricking pains in the skin, old eating sores, ulcers, etc. Bottanic Blood Balm taken internally, cures the worst and most deep seated cases by enriching, purifying and vitalizing the blood, thereby giving a healthy blood supply to the skin. Bottanic Blood Balm is the only cure to stay cured, for these awful, annoying skin troubles. Heals every sore and gives the rich glow of health to the skin. Builds up the broken down body and makes the blood red and nourishing. Especially advised for chronic, old cases that doctors, patent medicines and Hot Springs failed to cure. Druggists, \$1. DOGS OF ANCIENT LINEAGE.

How the Lhasa Terrier Might Have
Opened the Gates of the
Sacred City.

The little toy dog of Thibet
which kennel club edicts have de-
clared shall properly be known as
the "Lhasa Terrier," is no novelty
in our midst, although his num-
bers in an unkind climate possi-
bly do not reach a round dozen,
says G. B. Fry's Magazine.

He has been shown and ex-
ploited by fashionable ladies for
some five or six years past, and
was by way of taking a lead with
other Asiatic breeds that were all
the go—the "imported" spaniels of
the dowager empress, the edible
and hairless dogs of China, and the
pet dog of the Japanese mouse—
when the flat of a too restrictive
board of agriculture fell, spelling
one word—quarantine. That in-
fluence, therefore, which might
have opened the gates of Lhasa,
and perhaps, too, the hospitable
heart of the grand lama himself,
and which even might have ren-
dered expeditions unnecessary,
received a check.

Woman's curiosity in regard to
"quarantine" of the type of Asia's own
particular dogs had to be satisfied
with second-hand information ob-
tained for them by "mere male
friends" who lived in India on the
northern frontier, and who saw
on arrival those dogs which occa-
sionally come down from the mys-
terious tablelands, together with
spices, and bales of woven stuff
and the long-haired cats, the pet-
ted companions of Thibetan
monks. A great antiquity is
claimed for the breed, a point
which may perhaps be ceded when
4,000 years is advanced as the pos-
sible age of the treasured toy
breed of Pekin's palace.

The little Lhasa terrier is cov-
ered with a heavy coat of long
silly hair, which, falling all over
the face of the dog, partly ob-
scures the eyes. He is sometimes
gray, black and white, or darkish
brown with white markings. He
bears considerable resemblance
to the Maltese terrier in outline,
and it has been supposed that this
is the breed which Cleopatra ob-
tained through her emissaries from
the east and introduced into
Egypt and the Greek isles, and for
Greek and Roman ladies paid so lavishly.

Fifty Years a Clerk.

A few weeks ago a Wall street
bank clerk celebrated the comple-
tion of the fiftieth year of his ser-
vice in the employ of a single bank
and the papers singled it out as a
matter of note that an American
had been content to serve one mas-
ter for 50 years. And it was a mat-
ter of note. We printed some little
time ago a striking little article
on "Americans as Quitters." Those
were men of business and en-
ergy who quit when their job was
done in order to go higher up and
do a better job, better still. But
most of us are more fitted to clerk
it than to organize, and what is en-
ergy in able men is often just
plain restlessness among the rank
and file. To serve one master well
for 50 years is an achievement. It
ought to be made distinctly an
American one—Lassie's Monthly.

A Small Girl's Magazine.

In Brooklyn nine school girls
have established a club in their
school, the object of which is to
train the youngsters in writing
short stories. They publish "The
Monthly Magazine of the B. W. R. C." and wild horses could not
drag from them the secret of the
mystic letters. The magazine is
written and read by the youthful
contributors at each meeting, and
the manuscript is afterward bound
together and circulated among
the friends of the contributors.
There is only one copy made, and
as one of the building authors—
whose age is nine—expresses it,
"it is all read up when it gets back
home."

Defied the Queen.

The last royal commission that
the late Franz von Lenbach re-
ceived was from Queen Wilhel-
mina of Holland. She wanted to
sit, however, in a quaint Dutch
dress, and on Von Lenbach sug-
gesting that she should wear
something more artistic told him
sharply to get on with his work.
"Your majesty can command your
own subjects," said Von Lenbach,
putting down his brush and
palette, "but I am a German." So
the picture was never finished.

A STRONG MAN

Has the advantage over a weak man in the world of work. Physical strength is made from food when it has been digested and assimilated. There is no other way in which strength can be made except from food. There's many a weak man who is unable to do hard and heavy work because the food he eats is not perfectly digested and so fails to nourish the body. He has stomach trouble in some form.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It builds up the body with solid flesh and strong muscle, by enabling the perfect digestion and assimilation of food.

"I was a great sufferer from dyspepsia for over two years, and I was a complete physical wreck," writes Mr. Preston E. Fenstermacher, of Egypt, Lehigh Co., Pa. "Had many torturing, gnawing and cutting pains—I think all that a dyspeptic has or ever could have. I also suffered much with constipation. My clothes were soft and flabby, circulation poor and slow. Suffered greatly from cold hands and feet. At last I came across an advertisement of Dr. Pierce's and I tried Dr. Pierce's Golden Medical Discovery and 'Pleasant Pelets.' I used about eight vials of the 'Pelets' and ten bottles of the 'Discovery,' which brought me back to my former state of health."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be swayed off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

The sluggish liver is made active by the use of Dr. Pierce's Pleasant Pelets.

EDMUND HARRISON, A. M., LL. D.,
PRESIDENT.

JESSE EDMUNDSON
Leaves Dennison, Texas, for Los Angeles, Calif.

The Denison Gazetteer gives an old-Hopkinsville boy this exceedingly complimentary send-off:

"J. L. Edmundson, who has conducted the local columns of the Herald for the past three years, left with his wife last week for Los Angeles, Cal. Mr. Edmundson will make California his future home. That is his old stamping grounds, he having successfully conducted several newspapers on the Pacific slope. Edmundson is one of the very best newspaper men that has ever been in the state of Texas. We will leave out Dennison and compliment him by saying all Texas, and this goes without any intended flattery. Edmundson is perfectly capable to occupy any editorial position on a great daily. He is just as much at home in the editorial chair as rustling on the streets for news. No man ever covered the local field better than Edmundson. An interviewer he has no peer in the Southwest. He has as keen a scent for news as a hound on a deer's trail, and like the hound you cannot shake him off until he runs the game to cover. There never has been a more industrious newspaper man in the state. In newspaper work he is indefatigable. He is a very clean cut writer, terse, vigorous. The local work of Edmundson, which was always good, never gave the opportunity to show what was in him. To be very plain, Edmundson is a fool to play second fiddle to any newspaper man. He should be the whole push, expressing his views from the editor's chair and not the reporter's desk. Ever since Edmundson was here on the Herald he has been a particular friend of the Gazetteer. He was almost a daily visitor, social, ball fellow well met, a delightful conversationalist. He was a frequent contributor to the columns of this paper under a non-plume. No newspaper man who has ever left Dennison will carry with him better wishes of the craft, and he has a warm place in the affections of the public. His newspaper work has always been clean and honest and his statements always reliable. It will be a pleasure of the Gazetteer to keep track of him, and we also wish his wife much pleasure and happiness in her new home."

Fine Farm to be Sold.

On August 15th, 1904, at 11 o'clock a. m., in front of the court house door, in Hopkinsville, Ky., I shall expose for sale at public outcry, to the highest and best bidder, the farm known as the "Old John Ferguson place," belonging to the estate of the late Martha Ferguson.

Said farm contains 277 acres, is situated one mile south of Herndon, Ky., on the Dover road, is well fenced with wire, excellently watered, would make fine stock farm; 60 acres in timber; buildings in good repair, consisting of 2-story 6-room house, two cabins, new stable, and good barn.

A River of Land.

That capacity of the Mississippi for filling up canals and old channels is something awful. Government engineers have found that the amount of solid matter annually carried past Vicksburg is enough to make a block of earth 300 feet high and a mile square. Some of this spreads around on the valley between here and the sea, and the rest goes out into the Gulf of Mexico.

Think what that means. Instead of a river of water this is a river of land. It would make a solid stream of earth five feet deep, and nine feet wide, flowing night and day as fast as a man can walk—four miles an hour—all sliding down out of the Northern hall of the country towards the sea. Year in, year out, that endless line of earth goes on. It would take a force of more than 50,000 men, working in eight hour shifts, to throw the dirt into the stream, supposing the river bed were rigid and an inexhaustible supply of dirt on the bank. It would make 25,000,000 wagon loads every year.—Anslie's.

Herbire

Restores the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over-indulgence in food and drink and drink. Herbire acts quickly, a dose after meals will bring the patient into a good condition in a few days.
G. L. Caldwell, Apt. M. K. and T. R. R., Checotah, Ind. Ter. writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbire. It has made me sound and well." 50c. Sold by R. C. Hardwick.

Insurance Joke.

Lives of great men all remind us that we can hustle like the deuce, and, departing, leave behind us educats for our widows' use. Life is real, life is earnest, and if we are well insured, the stern sorrows of our parting may much better be endured.—Insurance Age.

The Blind May See.

Dr. D. Garfinkle's Eye Remedy, cured hundreds in Tennessee who were nearly blind with sore eyes, eye-grains, watering, itching, burning, inflamed eyes, and wild hairs. Many had scars or pterygia on their eyes, could not see their way, were given up by doctors as incurable after paying out hundreds of dollars. Call or write for free sample, and you will be convinced that you can be cured. No matter how severe your case be, nor of how long standing, address Dr. D. Garfinkle, 609½ North Summer Street, Nashville, Tennessee.

Recklessness.

Recently a roll of bills stopped a bullet which struck a Chicago man in the breast, thus saving his life. A paragraph at once picked up the thought to remark, "and yet there are reckless people who will go right ahead day after day, without a roll of bills on their person."

Look In The Glass.

What do you see? A face covered with pimples, blotches, or blackheads, a yellow skin, lusterless eyes—do you know what the trouble is? Are you going to continue to use soaps, powders, or other cosmetics, or will you remove the cause by getting your system in order? If your stomach, liver, kidneys and bowels are in good condition, your complexion will be all right again in a short time. Dr. Caldwell's (Laxative) Syrup Pepsin regulates the organs of digestion and secretion. Sold by all druggists on the manufacturers' guaranties.

BREAKS UP IN A RIOT.

Democratic Convention at Lexington, Ky., to Nominate Candidate for Court of Appeals.

Lexington, Ky., Aug. 4.—The Democratic convention of the Fifth Appellate District to nominate a candidate for Judge of the Court of Appeals broke up in a riot today before it had been in session two hours. Police had to be called in to quell the disturbance and fifty or more of the delegates received broken heads from the maces of the officers before order was restored.

The trouble was precipitated when temporary chairman W. A. Lee seated a contesting delegation from Owen county. The men opposing the nomination of Judge James E. Cantrill made a rush for the stage and with fists and clubs made an attack on the Chairman and Hon. Willard Mitchell, who was on the stage with him. The Cantrill men joined in the defense. Chief of Police Reagan, who had just been made sergeant-at-arms, called in fifty of his men and ordered them to charge the crowd and use their clubs freely. So well were his orders carried out that a half hundred of the delegates were led from the hall with blood streaming from their faces and heads, and many of them had to be attended by physicians.

The anti-Cantrill men bolted and the Cantrill men held another session tonight and nominated the Judge by a unanimous vote.

Cures Scientific.

Rev. W. L. Riley, L. L. D., New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment. The first application giving my first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, \$1.00.
Sold by R. C. Hardwick.

WRECK ON L. & N.

Passenger Trains in Collision at Horse Cave, Ky.

Louisville, Aug. 4.—South-bound passenger train No. 1 on the Louisville & Nashville, which left Cincinnati at 6 o'clock last night collided at Horse Cave, Ky., with north-bound passenger train No. 2, which left Nashville about 8:30. Thirty-three passengers and four trainmen were injured, but none, it is thought, will die. The condition of Engineer Rehm, on No. 1, is serious.
According to the information received here Rehm either disregarded orders or was sound asleep, as his train was going at a forty-mile clip when it struck the north-bound passenger. The baggage car on No. 1 was destroyed and the postal car damaged, but none of the coaches left the track.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Proprietor, Sullivan House El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c, \$1.00. Sold by R. C. Hardwick.

A BRIDE'S BROTHER

Kills Her and Her Husband While Robbing Their House.

Philadelphia, Pa., Aug. 5.—Joseph Schram and his newly married wife were murdered in their home this morning at 4 o'clock by Harry Fisher, a brother of the bride. He had entered the house to rob it, and when he was discovered killed the couple. The shots were heard by the police and they surrounded the house. When Fisher saw that he was caught he shot and tried to kill himself, but inflicted only a slight scalp wound. He was taken into custody and confessed the crime.

CARD OF THANKS

From One of Winners in Ugly Man's Contest.

Mr. S. S. Spicer, of Beverly, who looked after the culinary department on the occasion of the barbecue at Herndon last Saturday,

desires to thank the public for their attendance and general good behavior. The affair was a great success.

Mr. Spicer says that owing to the threatening weather the day before he decided not to prepare as many carcasses as was intended and this is the reason that there was a scarcity of barbecued meat.

Mr. Spicer, it will be remembered, was one of the winners in the Kentuckian's ugly man contest. He won third prize, a pocket knife.

NO MORE WIDOWS.

Bob Taylor Will Wed a Virginia Girl Next Time.

Richmond, Va., Aug. 5.—The surprise over the publication of the divorce of former Gov. Robt. L. Taylor, of Tennessee, had hardly subsided before the announcement comes of his engagement to Miss Mamie St. John, daughter of a distinguished Virginia family. The formal announcement was made at Chilhowis, Smyth county, Virginia, the home of the young woman. The marriage, it is said, will soon follow. Gov. Taylor has just become the owner of a newspaper in Bristol, and will presumably make his home there.

Clear Water.

The Hopkinsville Steam Laundry has put in position another large water tank making in all four large tanks and with their two filters will in the future be able to secure clear water, which many laundries cannot procure. Our people who have washing for either themselves or family should not fail to give them their work. They pay to hands alone over \$300 weekly, which is spent here among our people. While many laundries charge from two to three cents for collars and four to five cents for cuffs, they charge only 1½¢ for collars and 3¢ for cuffs.
